Kaplan Higher Education (KHE) includes Kaplan's domestic postsecondary education businesses, made up of fixed-facility colleges and online postsecondary and career programs. KHE also includes the domestic professional and other continuing education businesses.

Since 2012, KHE has closed campuses, consolidated facilities and reduced its workforce. On September 3, 2015, Kaplan completed the sale of substantially all of the remaining assets of its KHE Campuses business. In connection with these and other plans, KHE incurred \$2.8 million in restructuring costs in the first quarter of 2015, including severance (\$1.1 million), lease obligation losses (\$0.9 million), accelerated depreciation (\$0.7 million) and other items (\$0.1 million).

KHE results include revenue and operating losses (including restructuring charges) related to all KHE Campuses, those sold or closed, including Mount Washington College and Bauder College, as follows:

	I nree Mo	i nree Months Ended			
	Ma	March 31			
(in thousands)	2016		2015		
Revenue	\$ 798	\$	65,307		
Operating loss	\$ (1,192	2) \$	(12,288)		

In the first quarter of 2016, KHE revenue declined 30% due to campus sales and closings, and declines in average enrollments at Kaplan University, reflecting weaker market demand. KHE operating results improved in the first quarter of 2016 due to reduced losses at the KHE Campuses business and lower marketing expenditures at Kaplan University.

New higher education student enrollments at Kaplan University declined 34% in the first quarter of 2016 due to lower demand across Kaplan University programs and a timing shift in the academic calendar in the first quarter of 2016. Total students at Kaplan University were 37,398 at March 31, 2016, down 18% from March 31, 2015.

Kaplan University enrollments at March 31, 2016 and 2015, by degree and certificate programs, are as follows:

	As of Ma	As of March 31		
	2016	2015		
Certificate	5.8%	2.5%		
Associate's	22.1%	29.7%		
Bachelor's	50.5%	45.4%		
Master's	21.6%	22.4%		
	100.0%	100.0%		

Kaplan Test Preparation (KTP) includes Kaplan's standardized test preparation programs. KTP revenue declined 4% for the first quarter of 2016. Enrollments, excluding the new economy skills training offerings, were down 14% for the first three months of 2016 due primarily to declines in pre-college programs; however, unit prices were generally higher. In comparison, KTP operating results improved in the first quarter of 2016 due to a reduction in operating expenses.

Kaplan International includes English-language programs, and postsecondary education and professional training businesses largely outside the United States. In January and February 2016, Kaplan acquired Mander Portman Woodward, a leading provider of high-quality, bespoke education to U.K. and international students in London, Cambridge and Birmingham; and Osborne Books, a leading education publisher of learning resources for accounting qualifications in the U.K.

Kaplan International revenue declined 12% in the first quarter of 2016, of which 4% was due to currency fluctuations. The remaining decrease is due to enrollment declines in English-language and Pathways programs, partially offset by enrollment growth in Singapore and Australia higher education programs. Revenue growth from the acquisitions in the first quarter of 2016 was largely offset by revenue declines due to prior year dispositions. Operating income declined in the first quarter of 2016, due largely to the declines in English-language and Pathways results, partially offset by operating income from newly acquired businesses.

Kaplan corporate and other represents unallocated expenses of Kaplan, Inc.'s corporate office, other minor businesses and certain shared activities. In the first quarter of 2015, Kaplan Corporate recorded \$7.6 million in restructuring charges, including accelerated depreciation (\$6.5 million) and lease obligation losses (\$1.1 million), related to office space managed by Kaplan corporate. In addition to lower restructuring costs, Kaplan corporate expenses also declined due to the benefits from restructuring activities, as well as 2015 spending for the replacement of its human resources system.

In the first quarter of 2016, Kaplan sold Colloquy, which was a part of Kaplan corporate and other, for a gain of \$18.9 million that is included in other non-operating income.

Television Broadcasting

Revenue at the television broadcasting division increased 10% to \$92.0 million in the first quarter of 2016, from \$83.6 million in the same period of 2015; operating income for the first quarter of 2016 increased 7% to \$41.2 million, from \$38.6 million in the same period of 2015. The revenue increase is due primarily to \$4.8 million in increased retransmission revenues and a \$2.8 million increase in political advertising revenue. The increase in operating income is due to the revenue increase, offset by higher spending on digital initiatives and increased network fees.

Other Businesses

Other businesses is comprised of three manufacturing businesses, including Dekko, a manufacturer of electrical workspace solutions, architectural lighting, and electrical components and assemblies acquired in November 2015; and providers of home health and hospice services. Other businesses also include SocialCode, a provider of marketing solutions on social-media platforms; Slate and Foreign Policy, which publish online and print magazines and websites; and certain other new ventures.

The increase in revenues for the first quarter of 2016 is mostly due to the Dekko acquisition. In the first quarter of 2016, positive operating results from the healthcare and manufacturing businesses were offset by intangibles amortization and losses from publishing, SocialCode and new ventures.

Supplementary information regarding manufacturing results is as follows:

Without the pension credit, corporate office expenses declined in the first quarter of 2016 due primarily to lower compensation costs.

As a result of these transactions, income from continuing operations excludes the operating results and related loss, if any, on dispositions of these businesses, which have been reclassified to discontinued operations, net of tax, in 2015.
